door. Then I lay down again. Soon I own coat. heard the whistle of the Republic blowing at regular intervals, and realized that a fog had settled. In a little time. in the distance, I heard the whistle of another ship, and as the seconds passed it grew louder. Then it came very near, and as I was about to get out of my berth I heard the whistle very near, and then there was the impact of the collision. My wife, I found, was awake. We dressed as fast as we could

The most anxious time for me was when, because women and children went first, I had to be separated from my wife. It was many hours before I saw her again. Naturally, on the Florida we had a hard time. There was no accommodation for the great number of passengers, and all were huddled together. There was much disorder among the im migrants who were in the steerage of the Italian ship.

When we were leaving the Florida for the Baltic, after many uncomfortable hours, we saw many things that were not to be seen while leaving the Republic. The immigrants were unruly, and the men of the Republic, who took mat-ters in hand in the lowering of the boats, were compelled to use force in order to keep back the Fiorida's passengers, who insisted on getting in the ats before the women had been taken

Executive and Talk of Exclusion.

President Roosevelt entertained at luncheon yesterday Judge Ben B. Lindsey and James D. Phelan, former mayor of San Francisco. The meeting was of San Francisco. The meeting was brought about for the discussion of proposed anti-Japanese legislation in Callfornia.

The President told his guests that he had received copies of the bills now before the legislature, and found the land bill is not unlike the Illinois statute forbidding aliens to own lands.
